Step inside

As soon as you step inside a Stewart Milne home, you'll see and feel the difference.

This is no ordinary property – this is something special. A home where clever design achieves the perfect balance between elegance and practicality. Where every fitting and appliance is of the highest quality. Where the renowned Stewart Milne Homes' attention to detail ensures a superb level of finish.

Start at the heart...

The kitchen is the heart of any home, and it's likely this is where you'll head first as you explore. For most families it's the busiest, hardest-working room in the house, so we've designed each of our kitchens to be particularly spacious. We've also taken care to locate the kitchen in the optimum position, given the likely flow through the household. Practical connections to a dining or family room, a utility space or the garden or French doors make the kitchen more stylish and welcoming than ever. Naturally details vary depending on the house style, but the common factor is that we've thought about how you'll use the kitchen most, and designed it to work perfectly.

While you're exploring the kitchen, take a moment to check the fittings and high specification appliances, the soft closing drawers, chrome door hinges, USB sockets – all the little things that make a house a great home.

Depending on the location and style of your home, the specification will vary, but typically you'll find beautifully-designed stainless steel hobs, cooker hoods, multi-function ovens, microwaves/grills, integrated fridge freezers and dishwashers. Breakfast bars can also be included in many homes.

All homes have the benefit of a separate utility room with space and plumbing for

your washing machine and tumble dryer as well as plenty of storage.

Once you have reserved your new Stewart Milne home you then have the opportunity to personalise it with a wide range of choices, including; kitchen unit finishes, worktops, handles, bathroom vanity unit finishes and Porecelanosa tiles.

Getting comfortable...

Next stop on your tour; the main living room. For welcoming friends and entertaining or for relaxing at the end of a long day, this is a space to really enjoy. We've designed ours to make the very most of what sunlight we get in Britain, with large feature windows and, in many homes, French doors opening onto a patio for a lovely inside-outside living space. In most of our homes, for a little extra cost, you can choose to have a fireplace fitted – there's a range of styles to choose from if you'd like to create a traditional focal point in the room.

Moving on upstairs...

Now you'll probably climb the stairs to the sanctuary. That's how many people think of the master bedroom – and as you spend about a third of your life in it, it has to be just right.

All master bedrooms have either a walk-in-wardrobe or built in wardrobes

included. Television points are conveniently positioned in all bedrooms and telephone points in the master bedroom. You'll find most master bedrooms are en-suite with either a luxury double shower or full bath with separate shower.

Today the bathroom is as much a place to enjoy as a functional necessity, so we design bathrooms and en-suites with indulgence and pampering in mind including larger showers and chrome heated towel rails in our larger homes. Several of our homes have an additional en-suite bath or shower room to the guest bedroom – again available with a choice of tiling. Naturally bathroom suites, shower cabinets and bathroom hardware are all high-specification examples from respected manufacturers.

As you make your way through a Stewart Milne home, we hope you'll note high quality of fittings and finishing. Internal walls and ceilings are painted and elegant white panelled doors are fitted with attractive chrome lever handles, chrome hinges and latches. Our homes are wired with an abundance of socket outlets, telephone and TV points, while smoke and heat detectors are naturally wired to the mains.

Take a closer look...

Warm and snug...

Did you know that, compared to a second hand home, a new home is, on average, six times as energy efficient. Due to the immensely improved insulation specification in new homes, you will be amazed to see the savings you can make while ensuring your home is appropriately warm and cosy. At the heart of the central heating system there's a modern, highly-efficient and environmentally responsible gas boiler, while thermostatic radiators give you independent control for each room.

Out and about...

Depending on the home you're visiting, there'll be more to explore outside – such

as a high specification garage with steel doors and built-in power-sockets, turfed and landscaped front gardens, smart mono bloc driveways. Whatever the location and the specifications, you'll find the exterior space as attractive and as welcoming as the inside of the home – although naturally a new garden needs a little time to develop and look its best.

As you complete your viewing – and listen to the reassuringly solid sound of the door closing behind you – you'll leave with an idea of just how good it could feel to call a Stewart Milne home your own. If there is anything you'd like to know about a specific development, house-style or plot, then please get in touch – we're here to help.

The finishing touches...

When you buy a new home you're buying a fresh clean space. You can make it look and feel exactly how you want it to, with minimal fuss. Once you have reserved your new Stewart Milne home you then have the opportunity to personalise it with a wide range of choices, including; kitchen unit finishes, worktops, bathroom vanity unit finishes, handles and tiles. Just ask for details.

For the first two years we take care of any agreed defects. Our customer service team prides itself on dealing with questions and queries as quickly as possible. For the remaining eight years, in the unlikely event of a structural defect, this is dealt with directly by the highly-respected NHBC - the benchmark for quality in British building standards.

All kitchen appliances are covered by a two-year manufacturer's warranty.

HOW WE'LL CARRY ON HELPING AFTERWARDS

The best thing about buying a new Stewart Milne home? You have nothing to worry about once you've moved in.

Our comprehensive warranties take care of all the things that might be an issue with an older home. The list of what's covered runs to three A4 pages, and includes central heating (other than boiler servicing), wastes and drains, kitchen appliances, flashings, gutters and downpipes, roof, sanitary ware, structural defects, water services and much more.

On the day you move in, you will receive a comprehensive Guide to your New Home and a detailed Home Owner's pack. We'll also introduce your customer service co-ordinator who is free to help if you need any assistance while settling in.

SPOILT FOR CHOICE

When you reserve your home early, you can choose many of the fixtures and fittings that will be included in your new home from kitchen doors and handles to worktops and tiling.

ENJOY PEACE OF MIND

Buying a new home eliminates the need to do renovations, repairs or DIY, meaning you can spend more time with family and friends, doing all the things you really enjoy. All our homes come with a 10 year NHBC warranty providing you with peace of mind which those buying a second hand property simply do not have.

LESS CHAIN MEANS LESS DELAY

You can move into your new home as soon as it is complete, there is no need to wait for existing residents to vacate. This reduces the chain, stress and uncertainty associated with buying a second hand property.

DESIGNED TO SUIT MODERN LIFESTYLES

Our homes are built to make use of every inch of space. Research shows 17% of living space in older style properties often goes unused. Our homes provide flexible living space whatever your needs.

STAY SAFE AND SOUND

Our homes are designed to adhere to high building standards. These standards relate to every aspect of a building's construction including its structure, ventilation, sound insulation, electrical and fire safety, so you can enjoy living in a safe and secure environment. Your new home is also energy efficient, saving you money on heating bills.

BRAND NEW MEANS A FRESH, NEUTRAL CANVAS

Everything in a new home is clean and untouched by previous owners – it's like buying a brand new car and driving it out of the showroom. Our homes are decorated in 'neutral' colours giving you a neutral canvas to stamp your own style and personality on from day one. There is no DIY to do, no re-decorating of another person's taste, just a perfect new home.

BE PART OF A NEW COMMUNITY

Moving to a brand new home is an opportunity to make new friends and be part of a new and exciting community.

Our neighbourhoods are designed and built with people in mind and with everybody starting from scratch, getting to know your neighbours is easy.
